

**E65S**

*The E65S is the perfect synergy of proven premium espresso grinding technology and pioneering features, designed to meet the modern demands of coffee professionals around the globe.*

**Machine Price: ₱ 175,000**

## **Machine Specifications:**

- Fast, quiet grinding for espresso
- Compact footprint: Slim corpus with modern design
- Grind speed - about 5-7 g/sec
- Custom grind programs - set up to 8 profiles with 0.1 s resolution
- 65 mm flat steel burrs
- 1200 g/2.6 lb hopper
- Removable spout makes cleaning easier
- New declumper for fluffy and centered mound of grinds into your basket
- Up to 6 recipes programmable
- Multifunctional turn- & push-button: Bright digital display with control knob
- Quick, stepless and single-handed grind adjustment with independent locking mechanism
- Adjustable and removable spout to fit any portafilter
- Bean hopper with enhanced durability
- Removable spout makes cleaning easier
- Universal, robust portafilter holder
- **Idle speed:** 1650 rpm
- **Hopper capacity:** 1.2 kg
- **Grinding capacity:** approx. 4-7 g/sec
- **Voltage:** 220-240 V
- **Frequency:** 60 Hz
- **Dimensions (h x w x d):** 23" x 7.6" x 11.1"

---

***Free Training (Machine Operation, Maintenance Procedure, & Basic Troubleshooting)***

***Nationwide service from our Allegro Offices complemented by our Factory Trained and Certified provincial Dealers***

MANILA • CEBU • DAVAO • PAMPANGA • GUAM

**1 year warranty parts and service except wear and tear parts**

**E65S GBW**

**Machine Price: ₱ 239,800**

*The E65S GbW is the next espresso grinding revolution. It is the first espresso grinder ever, that features Grind-by-Weight technology for real-time scale controlled dosing as well as Mahlkönig's pioneering patented Disc Distance Detection that lets you set the degree of fineness based on the actual distance between the burrs*

## **Machine Specifications:**

- Proven premium grinding profile featuring a great taste experience
- Grind-by-Weight technology featuring weight-based dosing: The integrated Portafilter Detection recognizes the portafilter automatically, selects the corresponding grinding preset and starts the grinding process.
- High-precision load cell for real-time weight control during the grinding process
- Patented Disc Distance Detection (DDD) enabling accurate settings of the degree of fineness. It calculates the physical distance between the burrs down to 0.001 millimeter (or 1 micron) and making it simple to monitor the grind setting Adjustable illuminated spout providing a clean and centered coffee outlet
- Active internal cooling system maintaining low grinding temperatures.
- Pleasantly quiet grinding
- High-resolution 88.3 mm display with a wide viewing angle.
- 65 mm flat steel burrs.
- Burr Speed: 4-5 g/ sec.
- **Idle speed:** 1700 rpm
- **Hopper capacity:** 1.2 kg
- **Grinding capacity:** approx. 5-6 g/sec
- **Voltage:** 220-240 V
- **Frequency:** 60 Hz
- **Dimensions (h x w x d):** 23" x 7.6" x 11.1"
